DETAILED ACTION

1. This office action is in response to a preliminary amendment filed on 5/03/05. As directed by amendment claims 6, 8, 11, 13-15, 18, 20, and 25 were amended, claim 36 was added and claims 26-32 and 34 were cancelled. Thus, claims 1-25, 33, 35 and 36 are presently pending in this application.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-20 and 35, drawn to a metered dose inhaler device.

Group II, claim(s) 21-25, 33 and 36, drawn to a canister and valve assembly.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of group I is mechanism for actuating a metered dose inhaler, which is not shared with group II. The special technical feature of group II is a metering mechanism for a valve, which is not shared with group I. Therefore, the respective groups lack the same or corresponding features and do not relate to a single general inventive concept.

4. A telephone call was made to Paul Greeley on 3.20/09 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
